

YAMAHA MUSIC MANUFACTURING, INC.
THOMASTON, GEORGIA

Yamaha Music Manufacturing, Inc. of Thomaston, Georgia makes upright and grand pianos and professional audio speakers. It is certified to ISO 14001.

ENVIRONMENTAL
PERFORMANCE

Past Accomplishments

Yamaha Music Manufacturing has demonstrated its commitment to environmental performance through reducing air emissions, hazardous and non-hazardous waste, and energy use. Since 1999 the facility has:

- **Reduced VOC emissions 9% and hazardous air pollution (HAP) 25%** through using cleaner chemicals and through employee education and training.
- **Reduced hazardous waste by 45% and non-hazardous waste 40%** through employee education and training.
- **Reduced energy use** by 12% through installing energy efficient motors, using flexible production time, and turning off lights in areas not in use.

Future Commitments

Yamaha Music Manufacturing is working to reduce air emissions, waste, and energy use. By 2004 the facility will:

- **Reduce air emissions** 3% per unit by substituting “green” inputs in the production process.
- **Reduce waste** by 16% per unit continued employee training to reduce need for product repairs.
- **Reduce energy use** per unit by 12% through reducing leaks in the compressed air system and expanding current energy saving activities.

AT A GLANCE:

Industry Sector:	SIC 3931
Business:	Makes pianos, audio speakers
Employees:	100-499
Accomplishments:	Reduced emissions of VOCs and HAPs Reduced hazardous and non-hazardous waste Reduced energy use
Commitments:	Reduce air emissions Reduce solid waste Reduce energy use
Address:	100 Yamaha Park Thomaston, GA 30286
Website:	www.yamaha.com

COMMUNITY OUTREACH

Yamaha Music Manufacturing responds to all citizen inquiries and also conducts plant tours, makes presentations at civic clubs, and places articles in local newspapers. It will make its annual environmental performance report available on its website, through the newspapers, at open houses, and at dealer tours of the facility.
